

EMPRESARIAL POLICY

We are a leading provider of technology and digital infrastructure solutions in Latin America.

- We are committed to developing products and services to accelerate the digital transformation of businesses and cities, thereby enabling a more sustainable future for the planet.
- We prioritize ethical, transparent, and sustainable governance, with all of our processes aligned with the ESG agenda (Environmental, Social and Governance).
- We actively contribute to the development of a low-carbon global economy by assisting in the reduction of energy consumption in data centers and technological ecosystems.
- We have established excellence as a standard in the delivery of our services and the sale of our products, with continuous quality monitoring in customer service and the pursuit of mastery.
- We adhere to the philosophy of continuous process improvement, investing continuously in the technical and intellectual advancement of our collaborators and partners in order to provide our clients with products and services that are efficient, secure, innovative, sustainable, and readily available.
- We carry out a rigorous monitoring of delivery deadlines, technical standards, and requirements applicable to operations, customers, and other parties involved.
- We value long-term relationships with the goal of creating shared value with all of our stakeholders, always acting transparently and with a focus on environmental stewardship, social responsibility, long-term vision, and ethical business conduct.
