

Corporate Policy

green4T, a specialist in mission-critical services, supporting data centers and high-availability IT environments throughout Brazil and Latin America, establishes and maintains its Integrated Management System and is committed to:

- 1 **Comply** with legal, regulatory, contractual, and other applicable requirements, as well as with the needs and expectations of stakeholders relevant to the business;
- 2 **Ensure** the quality, availability, and continuity of services, promoting customer satisfaction, compliance with service levels, and the continuous improvement of processes and of the Integrated Management System;
- 3 **Protect** the environment by preventing pollution, using natural resources responsibly, and reducing the environmental impacts of its activities;
- 4 **Promote** occupational health and safety by preventing accidents and occupational diseases and ensuring appropriate conditions for all employees;
- 5 **Act** ethically, with integrity and transparency, prohibiting any form of bribery or corruption, maintaining controls to prevent, detect, and address such practices, and encouraging good-faith reporting;
- 6 **Promote** the awareness, competence, and participation of employees and partners in meeting the requirements of the Integrated Management System.

Top Management ensures that this policy is communicated, understood, applied, and periodically reviewed for its suitability to the organization's purpose and context.

Eduardo Marini
CEO
